

Trailer Rental & Reservation Program

Summer is here, which means we think about cleaning up. We have both bulk trailers and green waste trailers that you can rent to help with your household clean-up tasks. These trailers are reserved on a first-come, first-served basis. Details are available on our website where you can also [reserve a trailer](#), or call our office to make a reservation. Reserve early to ensure you get a trailer on the date you want!

Summer Events

Summer months offer valuable opportunities to engage with our residents and communities. We take pride in our efforts to educate the public on the best recycling practices, and greatly value the feedback we receive from the residents we serve. Each year, we strive to be present at events with an information booth where we provide education and games.

Additionally, we offer side load truck demonstrations for educational purposes and enjoyment for people of all ages. While our industry is often observed from a distance, these events provide a firsthand experience for anyone interested in the process. Keep an eye on our social media channels to stay updated on when we'll be visiting an event

near you.

We look forward to an opportunity to get to know each of you and provide some information about our work.

James Kelsey, Sustainability Coordinator: (385) 468-6337 jakelsey@wasatchfrontwaste.org

Construction Materials

With summer in full swing, many residents find themselves tackling those construction and remodeling tasks they have been contemplating all winter. It is important to keep these construction materials out of your recycle can.

While some materials may be recyclable, such as copper pipe, they are not accepted in the recycle can. These items cannot be processed at the single-stream recycle plant and need to be recycled separately.

Please consider taking high value items like copper pipe and wire to a close by metal recycler for a refund. Construction materials must be placed in the garbage can.
