

11800 SOUTH SEWER UPGRADE PROJECT

JORDAN BASIN
IMPROVEMENT DISTRICT

January 2025 Update

3200 West - 3600 West

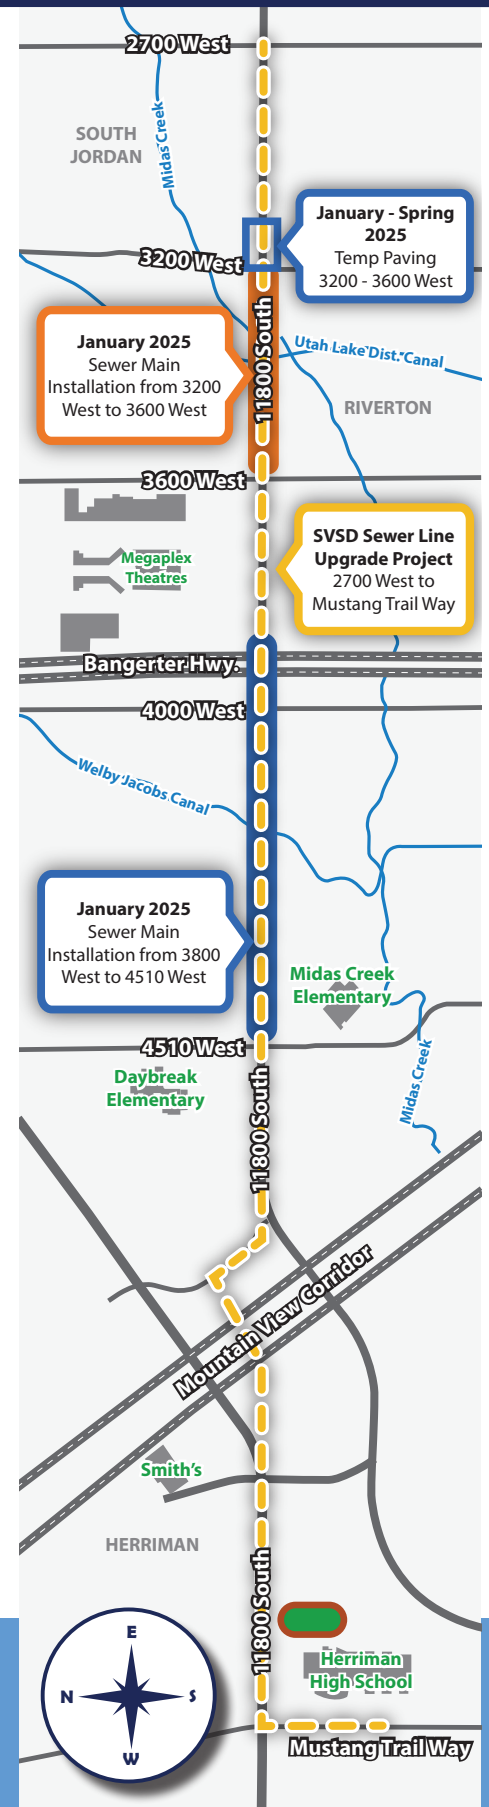

- Sewer pipe installation continues in this section, with work anticipated to be complete by the end of January.
 - Temporary pavement will be placed where needed on a weekly basis after crews finish installing the sewer pipe and it will be in place until Spring 2025.
 - Permanent paving is anticipated to be placed starting in Spring 2025.

3600 West Intersection Closure

- During mid-January, there will be planned restrictions at the 3600 West intersection.

3800 West - 4510 West

- Irrigation line relocations are complete. Sewer pipe installation will begin in this section starting January 2nd. Traffic is shifted to the north side of the road, with one lane maintained in each direction (east/west). This work is anticipated to continue through the end of January.
 - Please be attentive while driving through the area and be aware of any signs at intersections.
